

# ▶ The Codero Rewards Catalog

Your next upgrade is just around the corner... On Us!

*"When we wanted to install new custom software on our server, thanks to the Codero Rewards Program, it didn't cost a penny! We're here to stay."*  
- Jeff Carter, Rockbrook

# Codero Rewards Overview

[\\*Rewards Program Terms & Conditions](#)

Codero Rewards is our way of returning value to our most loyal customers.

- **Enjoy** – 200 bonus points just for signing up, along with referral bonuses and accelerating rewards every year!
- **Earn** – 2x points for every dollar spent with Codero for the 1st year, 4x for the second year, and 6x for the third!
- **Schedule Your Upgrade** – Upgrade when you want. Your points never expire, and there are no limits on when you can use them.
- **Redeem** – Give your infrastructure more performance, more reliability, and more value so your environment is always leading edge.

Enjoy Rich Rewards

Points add up fast!

Rewards	Rate of Earning
First Year	2x/dollar spent
After Year 1	4x/dollar spent
After Year 2	6x/dollar spent
After Year 3	8x/dollar spent
After Year 4	10x/dollar spent

It's easy to get started:

- Already a Codero customer? Then you're eligible!
- Complete the application form (and receive your 1st 200 points).

Are you on Facebook or Twitter? Like us at our [Codero Facebook page](#) or follow us [@codero](#) and receive an extra 200 rewards points with a maximum of 400 Points. To redeem these points, send us an email with your username and customer ID.

### Add Attached Storage

Get a NAS or SAN device that is fully managed by our team of hosting experts to store files, backups, snapshots and more.

(16GB Cache)

4TB NAS / SAN - 112,500 Pts.

8TB NAS / SAN - 150,000 Pts.

### Add a RAID card

Ensure that your data is protected and that you experience no down time in case you have a drive failure.

(RAID Card)

2-Port - 32,250 Pts.

4-Port - 69,000 Pts.

Dell H310 - 35,750 Pts.

(512MB NV Cache)

Dell 710 - 79,500 Pts.

(1GB NV Cache)

Dell 710p - 127,500 Pts.

### Add a SATA Drive

(7200 rpm)

1 TB - 15,000 Pts.

2 TB - 26,500 Pts.

### Add a SAS Drive

(15k rpm)

300 GB - 29,100 Pts.

600 GB - 50,000 Pts.

### Add a SSD

128 GB - 21,750 Pts.

256 GB - 31,500 Pts.

512 GB - 58,125 Pts.

1 TB - 74,500 Pts.

### Add Codero Elastic Block Storage

Get the ONLY guaranteed high-performance, multi-platform storage system in the entire industry to meet any situation or load.

(For every 1GB)

1000 IOPS - 225 Pts.

2000 IOPS - 340 Pts.

3000 IOPS - 450 Pts.

### Add Extra RAM

Server-grade RAM speeds up processing and adds to the overall performance of your dedicated server.

(For every 8GB)

18,750 Pts.

### Continuous Data Protection

Disk-to-disk backup solution that allows you to perform block-level backup as frequently as every 15 minutes.

R1Soft Server Backup Agent\*

15,000 Pts.

\*Requires Dedicated SAN.

## Data Backup

Disk-to-disk backup updates changed files incrementally at the block level.

### 20GB eVault Backup

Self-Service - 18,750 Pts.

Managed Backup - 30,000 Pts.

## FTP Backup

20 GB of remote backup protects against theft, viruses and general data loss.

### 20GB FTP Backup

Self-Service - 7,500 Pts.

## Add a Load Balancer

Spread your traffic across multiple servers and never get overwhelmed.

Dedicated Load Balancer - 336,750 Pts.

## Add a Firewall

Defend your server from malicious traffic through automatic, rapid response.

Cisco ASA 5505 - 66,750 Pts.

Cisco ASA 5510 - 224,250 Pts.

Cisco ASA 5520 - 299,250 Pts.

## 1Gbps Private Network

Transmit data securely through a synchronized private server network.

20,000 Pts. (per server)

## Add a PCI Cage

A PCI cage around your server environment will help your business achieve PCI compliance.

22,000 Pts.

## Add On-Demand Hybrid

Seamlessly connect the power of your dedicated server to the scalability of your cloud servers On-Demand, all through your own private network.

### Hybrid Network

(Cloud--Dedicated Server)

100Mbps - 59,800 Pts.

250Mbps - 135,000 Pts.

500Mbps - 242,000 Pts.

## 50% off Proactive Managed Services

Need service on your server? Let us be an extension to your IT staff. Looking to re-install your operating system or restore a database? Use rewards pts. to get 50% off Proactive Managed Services.

100,000 Pts. (per device)

## Add Server Monitor

Proactive, automated monitoring offering historical trends analysis.

Basic - 13,500 Pts.

Advanced - 17,500 Pts.

## Add a Network Card

Expand your reach with an Intel x540 DP 10G Network Card. Requires 10G PrivateNet and Dell R Series Server.

86,250 Pts.
